## JOB EXPERIENCES

---

### **FPT Software Jan 2026 – Mar 2026**

Fresher | Korean Bridge Engineer | Full-time

- Independently analyzed and documented business requirements, converting Korean client feedback into actionable development tasks
- Coordinated daily Scrum meetings and sprint planning sessions, ensuring alignment between both sides
- Managed task tracking and progress reporting via Jira and Confluence

### **FPT Software Dec 2024 – Jul 2025**

Intern | Korean Bridge Engineer | Full-time

- Supported senior Bridge Engineers in translating technical documents and requirement specifications between Korean and Vietnamese
- Participated in Agile/Scrum workflow, tracking tasks via Jira and reporting to Korean project manager
- Gained practical experience working in Korean corporate culture and enterprise software environment
